

MAILBOXES

1. Any person installing or replacing a mailbox and post shall place such at a vertical height of 45-48 inches above street level to the bottom edge of the mailbox and at a horizontal length of 36 inches from the curb or edge of road to the vertical post. No obstruction, support, or brace shall be placed in the area between the two posts. The box opening must be within six (6) inches from edge of road.
2. A mailbox installation or support must meet Federal and State regulations for breakaway standards. The maximum size allowable for a wooden post is four inches by four inches (4"x4"), or sixteen inches square. The maximum size allowable of a steel pipe is 2" of schedule 40 steel or lighter in diameter.
3. No mailbox shall be placed in a cul-de-sac. Mailboxes will be placed before or after the entrance of the cul-de-sac.
4. The installer is responsible for calling for utility locates (Gopher One) prior to digging or installation of the post.
5. Any person, firm, or corporation violating any provision of this ordinance shall be guilty of a misdemeanor.

Please refrain from planting flowers or shrubs on or around the base of the mailbox post and do not place newspaper boxes under the mailbox rather place them along side the mailbox.
